

SPORT GOVERNANCE ACADEMY KNOWLEDGE BASE

Governance

Last updated: September 25, 2024

 **Chgo** Sports Governance Association

The Sports Governance Academy (SGA) is the governance support hub for the UK sports and physical activity sector.

Brighton Plus Helsinki Declaration Principles:

- Education Training and Development
- Sport Information and Research
- Resources

Target Audiences:

- Sport Administrators
- Sport Policy Makers

Background:

The SGA aims to demystify governance and help organisations respond effectively to the growing governance challenges and opportunities the sector faces. The unique platform for governance support is provided by The Chartered Governance Institute UK & Ireland in partnership with the Sports Councils.

This partnership is built on a shared commitment to champion good governance to enable organisations to be successful, and a common goal to develop the skills, experience, resources and networks that people involved in the sport and physical activity sector need to help their organisations be successful.

The tools and resources found on the platform will also be of interest, and applicable to progressing gender equity through governance within sport organisations globally.

Signing up to the SGA is free, and members can access:

- Email alerts for courses
- Webinars and events
- Notification of new resources
- Governance content and services

- The SGA monthly news bulletin
- Access to an online forum
